We consider and think from  
the sight of customers

Grow Together With Customers

Succeed Customers

Succeed Ourselves

# Welcome to SKET Bearing

Since we started back in 2008, we have grown from a small workshop in China to currently having 12 000sq.m factory, employing more than 60 members of staff.

What hasn't changed is our continued mission to increase our customers' profitability by offering quality, value for money products in the fastest delivery time. We continue to focus on customer centric solutions to maximise machine uptime and in each and every interaction we strive for excellence.

Our vision is simply to be your best suitable supplier of **Tapered Roller Bearings** in China.

## Factory Overview

- > Production Workshop Area: 12 000 square meters.
- > Production Capacity: 5 million units / year.
- > The Bearing Quality Level: P0/P6/P5.
- > Inspection Equipment:  
Table meters, Contour meter,  
Roundness tester,  
Hardness tester, etc....

We have good relationships with authorized distributors of large bearing steel factories to ensure the procurement of high-quality raw materials at highly competitive prices.
